

Truck Committee Meeting Minutes
May 8, 2013
1900 hours
Company One

Attendance: Dave Bourgoïn, Tim O'Neil, Bruce Appell, Tom Kline

Called to order: 1930

Purpose is to review findings from FDIC

Found a tray to go in front of bumper to hold 100' of hose. Can shorten the bumper

Wilbur Light tower – can have camera on top. Wilbur rep will be coming to demo the light

tower. Night Scan Power light 15ft model

Federal camera system appears to be best for overall use

Looked at foam systems

Looked at Warren winches

Looked at Extrication equipment, Hurst is still the best

Looked at latest drawing from Rosenbauer

Federal to be mounted in bumper not on

Shorten bumper

Cord reel below gauges & controls?

Want slide out trays and need speedlays to be plumbed from top

Increase height by 6" to gain more compartment space?

Change the 3 ½ inch bay to 2 ½ as much as will fit.

Confirm Generator is large enough @ 7.9 KW

See if we can increase the number of bottle holders on the truck

Meeting adjourned: 2230
